

#

Infinite PRO capabilities

- Absorbance
- Absorbance spectra
- Fluorescence (top and bottom)
- Fluorescence spectra (top and bottom)
- Time-resolved fluorescence (TRF)
- FRET
- TR-FRET
- Fluorescence polarization (FP)
- Luminescence (glow, flash, multicolor)
- Automated pathlength correction
- Absorbance cuvette port
- NanoQuant Plate™
- Temperature control (RT +5°C to 42°C)
- Plate shaking (linear and orbital)
- Te-Inject™ reagent injectors
- QC tools for IQOQ services
- Connect™ microplate stacker
- ELISA
- DNA/RNA quantification
- Nucleic acid labeling efficiency

- Protein quantification
- ATP quantification
- Ca²⁺ detection
- HTRF®, DELFIA®, LanthaScreen®
- Transcreener®
- PolarScreen®
- GeneBLAzer®
- DLR®
- BRET (including NanoBRET™)
