

## Two day workshop on Product Designing and Prototyping

### Evaluation Results

Category	Avg(Min-Max)Count	Rating Scale	
<b>Event administration and facilities</b>		1	Bad
Overall rating of event	5.69(4,7)26	2	Well below average
Registration process	6(5,7)26	3	Below average
Pace of the event (time mgmt)	5.77(4,7)26	4	Average
Food and beverages	5.31(4,7)26	5	Good
Event venue/room	6.19(5,7)26	6	Very Good
		7	Excellent

Sessions	How did you come to know about this event?		
Session 1: Introduction to Design and case study	5.73(2,7)26	VC mailing list	12
Session 2: Design process	5.73(4,7)26	Through newspaper - Tol	5
Session 3: Assignments	5.65(4,7)26	Through newspaper - IE	3
Session 4: Assignments	5.77(4,7)26	LinkedIn	1
Session 5: Ergonomics	5.54(4,7)26	Friend/Father/Teacher	5
Session 6: Assignments	5.77(4,7)26		

Did the workshop fulfill your reason for attending?	Yes - Absolutely	19	
	Yes - But not to my full extent	7	

Please suggest a topic on which you wish to have a workshop on ?	sketching	Any other suggestions or comments to help us improve future event?	Need more detailed case studies and examples of iterative evolution of products
	Prototyping and Scale Modelling.		Duration can be increased so as to complete everyday aspect of every speaker.
	marketing		More practical interface
	hotel management		Reduce Design philosophy / General stuff / "this is what designers do" / non-
	transportation design		Start SMS service for workshop intimations
	Mechanics/Automobile/CAD software		Audio system needs improvement
	next generation sequencing , 16S ribosomal typing		Little more advanced techniques can be taught.
	transportation design		Need to focus more on thought process in product design
	entrepreneurship		Draw the sketching in front of trainees
	graphic design		Age group-wise workshops should be organized
	engineering drawing		
	Marks		
	tools which lead to creative experiences
