

One-Day Intensive, Hands-on Workshop on Fundamentals of X-ray Diffraction (XRD)

20th September 2014 , 9 am – 5:45 pm
Training Room, Venture Center

Organized by

Hurry !!
Limited
Seats

LEARN

Production and properties of X-rays | Production of monochromatic X-radiation | Constituents of the diffraction pattern | The powder diffractometer | Acquisition of good diffraction data | Qualitative phase identification | Industrial applications

WHO SHOULD ATTEND

Industry professionals- Pharma; Environmental; Forensic ; Food; Petrochemicals etc.

Students and staff- Polymer/ Materials sciences/ Engineering/ Analytical/Physical chemistry

REGISTRATION FEES

Category	Fees
Students with valid ID card	900
Micro and small enterprises/ individuals	2000
Medium and large companies	4000
