Indian Angel Network is Asia's largest network of Angel investors keen to invest in early stage businesses, which have potential to create disproportionate value. The members of the Network are leaders in the Entrepreneurial Ecosystem as they have had strong operational experience as CEOs or a background of creating new and successful ventures. IAN is also the first angel group in the world to go international, as IAN along with the British government have set up operations in London. IAN is an angel investor network with over 400 investors across 10 countries with over 80% of our investors actively investing / leading, etc. IAN has invested in 100 odd companies, these are spread across a variety of sectors: Education, Healthcare, QSR, E-Commerce, Gaming, Semiconductor, Robotics, Manufacturing, etc. And it has now started to invest in companies which impact the community / people who are less advantaged through its IAN Impact track. IAN is able to go beyond the normal, informal, local club structure of angel groups to a larger institutionalized model because of its nimble but robust, standardized & transparent processes that allow it to scale across geographies and a large number of members.
