

26th SIL series presents:

MAKING MEDICAL TECHNOLOGY AND HEALTHCARE SERVICE DELIVERY AFFORDABLE TO ALL AND PROFITABLE

Friday, 14th Feb, 2025

3:30 PM - 4:30 PM

Hybrid (in-person and online)

David will share his journey for Making Eye Care & Medical Tech Affordable.

Self-Financing Eye Care: Sustainable models serving low-income populations.

Affordable Medical Tech: Innovations accessible to lower & middle-income countries.

Financing Solutions: Funding strategies for scalable, cost-effective healthcare.

Challenges & Impact: Balancing profitability with affordability in medical advancements.

About the speaker

David Green, a MacArthur and Ashoka Fellow, is a social entrepreneur committed to making healthcare affordable and accessible. He co-founded Aurolab (India), restoring vision for over 40 million people, and serves as CTO of KeraLink International, focusing on corneal blindness. David has launched impactful ventures like Sound World Solutions (affordable hearing aids) and LegWorks (low-cost prosthetic knees) and collaborates with WHO on reducing medical costs. A University of Michigan alumnus, he has received numerous global awards for his contributions to healthcare innovation.

David Green
CTO at KeraLink International
