

One Day Intensive, Hands-On Workshop on High Performance Liquid Chromatography

Organized
by

Friday, 24 June, 9 AM – 5:30 PM

WORKSHOP DETAILS

Fundamental principles | Sample Introduction techniques | Column selection and instrument parameters | HPLC detectors | Qualitative & Quantitative Analysis | Basic maintenance | Troubleshooting process for problems | Practical applications | LC method development strategies | Best practices in LC | Lab session and lab tour.

FOR WHOM

Industry professionals (Pharma; Environmental; Forensic ; Food, Petrochemicals etc)

Students and staff (Polymer/ materials sciences/ engineering/ analytical/physical chemistry wishing to equip themselves for industry jobs)

REGISTRATION DETAILS

Register online at:

<https://tinyurl.com/HPLC-workshop>

Maximum 20 seats; First-come-first-serve.

VENUE DETAILS

Training Room , Venture Center,
100 NCL Innovation Park
Lab Block, Venture Center,
400 NCL Innovation Park
