

One day workshop on Gas Chromatography

Organized
by

Friday, 20 Feb, 9 am – 5:45 pm

WORKSHOP DETAILS

Fundamental principles | Sample Introduction techniques | Column selection and instrument parameters | GC detectors | Qualitative & Quantitative Analysis | Basic maintenance | Troubleshooting process for problems (contamination, ghost peaks, baseline drift, peak tailing, reduced peak size, carrier gas leakage, and retention time shift) | Practical applications | GC method development strategies | Best practices in GC | Lab session and lab tour.

REGISTRATION FEES

Medium and large companies/ others
Micro and small enterprises/ individuals
Students with valid ID card

Rs. 4000/-
Rs. 2000/-
Rs. 900/-

FOR WHOM

Industry professionals (Pharma; Environmental; Forensic ; Food, Petrochemicals etc)

Students and staff (Polymer/ materials sciences/ engineering/ analytical/physical chemistry wishing to equip themselves for industry jobs)

VENUE DETAILS

Training Room , Venture Center, 100 NCL
Innovation Park

Lab block, Venture Center, 100 NCL Innovation
Park
